

BUSINESS PROFILE

"Uplifting and empowering people through impactful infrastructure solutions"

Who We Are

Chisa Engineering is an award-winning CIDB recognised integrated engineering and construction solutions provider, specializing in comprehensive facility maintenance and engineering services. We deliver complete, coordinated solutions through our multi-disciplinary team of engineering and construction specialists.

Our Approach: From design to installation and maintenance, we integrate mechanical, electrical, plumbing, HVAC, general building and specialized equipment services into seamless, coordinated solutions. One point of contact. One accountability. One commitment to excellence.

Our Mission

To not only build systems but build impact through providing integrated engineering and construction solutions that enable businesses across South Africa to operate safely, efficiently, and reliably. We maintain the critical infrastructure that keeps communities healthy, businesses thriving, and operations running smoothly.

Our Vision

To be recognized as South Africa's leading integrated engineering and construction solutions provider, known for delivering seamless, comprehensive facility care across all engineering and construction disciplines.

Our Services

⚡ 🔧 💧 Mechanical, Electrical & Plumbing (MEP) Engineering Consulting and Engineering services

We provide professional consulting and engineering services in Mechanical, Electrical and Plumbing (MEP) systems across commercial, industrial, healthcare, mining and institutional facilities. We support clients from concept development through to commissioning and operational optimisation.

🏢 General Building and Facilities Maintenance

We provide facilities and general building maintenance services to ensure buildings and infrastructure remain safe, functional, and well maintained. Our services include carpentry, tiling, painting, roof repairs, electrical and plumbing repairs, door and window installations, ceiling repairs, and general structural maintenance for commercial, industrial, and institutional facilities. Through

preventative maintenance, repairs, and refurbishment works, we support clients in maintaining reliable, compliant, and efficient operational environments.

HVAC Systems

Heating, ventilation, air conditioning design, installation, and maintenance ensuring optimal climate control and energy efficiency.

Plumbing Systems

Comprehensive plumbing services includes Jojo tank installations, pump installations, piping, valves, water supply, drainage, specialized systems, and sustainable water management solutions.

Electrical Engineering

Complete electrical systems design, installation, maintenance, and fault-finding for all facility types, from power distribution to lighting systems.

Service Coverage & Industries

Multi-Province Operations - Strategic presence across South Africa's key economic regions, ideal for multi-location clients requiring consistent service delivery:

- Gauteng
- Limpopo
- Mpumalanga
- North-West
- Northern Cape

Industries We Serve

-  Commercial Buildings
-  Industrial Facilities
-  Mining Operations
-  Healthcare Institutions
-  Public Infrastructure

Why Chisa Engineering Services and Projects?

-  Competent and responsible Leadership
-  Superior Response & Service
-  Multi-Province Consistency

💰 Value-Focused Pricing

Leadership and Management

Managing Director / CEO: Tshepiso Patience Khosa

- Bachelor of Science (University of the Witwatersrand), Bachelor of Commerce Honours in Industrial and Organizational Psychology (UNISA), Management Development Programme (GIBS), Small Business Management (UJ), NHBRC and GIBS Cohort - Women in Construction (GIBS 2 years programme).
- People-centered and Strategic Managing Director with over 15 years' experience in mining, engineering and infrastructure maintenance.

Technical Director: Victor Khosa, Pr. Eng.

- Bachelor of Science in Mechanical Engineering (University of the Witwatersrand), BEng Hons (Mech) and Master of Science in Engineering - Project Management (University of Pretoria), Postgraduate Diploma in Business Management (Stellenbosch Business School), MBA (Stellenbosch Business School)
- Registered Professional Engineer (ECSA), SAIMEchE and SAIRAC
- Over 20 years of experience in design, engineering, and project execution in the Mining sector and SOEs.

Key clients

- BIDVEST FM
 - ESKOM – ROTTEK Industries
 - Mine, Health and Safety Council
 - Transnet Engineering
- ❖ Detailed list of projects available upon request.

Certifications and Accreditations

- 2nd Place for CIDB Project Delivery Excellence Award for Women-Led Companies in 2025 – For an innovative project to transform old industrial lights to LED lights in the Balancing plant for ESKOM Rotek Industries.
- CIDB Registered
- BBBEE Compliant – Level 1
- Registered with SAIRAC and ECSA
